For coherence theories in general, truth requires a proper fit of elements within a whole system. Very often, though, coherence is taken to imply something more than simple logical consistency; often there is a demand that the propositions in a coherent system lend mutual inferential support to each other.

In philosophy, universality is the idea that universal facts exist and can be progressively discovered, as opposed to relativism. In certain theologies, universalism is the quality ascribed to an entity whose existence is consistent throughout the universe, whose being is independent of and unconstrained by the events and conditions that compose the universe, such as entropy and physical locality.

What is Equity Optimization? Equity Optimization is a unique financial strategy that is very similar to how your bank operates with your income. The bank leverages your income deposits into interest bearing

activities to earn their income. The essence of the Equity Optimization strategy is the same concept, but its taking place on the debt side of the ledger: the side of your finances that ...
