iming or rhythm). This paper begins with an introduction to these concepts. i Examples of raga -s and musical compositions in the Hindusthani style are used to illustrate the important features of Indian music. Most of the discussion, however, should be applicable to the Karnatak system as well, and to Indian music in general.

In An Introduction to Classical Econometric Theory Paul A. Ruud shows the practical value of an intuitive approach to econometrics. Students learn not only why but how things work. Through geometry, seemingly distinct ideas are presented as the result of one common principle, making econometrics more than mere recipes or special tricks.
