Accounting Principles Managerial Accounting | Download book

Accounting or accountancy is the measurement, processing, and communication of financial information about economic entities such as businesses and corporations. The modern field was established by the Italian mathematician Luca Pacioli in 1494. Accounting, which has been called the "language of business", measures the results of an organization's economic activities and conveys this ...

Accounting - Wikipedia

Management accounting or managerial accounting gives accounting information to managers within organizations, to provide them with the basis to make informed business decisions that will allow them to be better equipped in their management and control functions.. In contrast to financial accountancy information, management accounting information is: ...
