A Brief Review of Elementary Quantum Chemistry C. David Sherrill School of Chemistry and Biochemistry Georgia Institute of Technology Last Revised on 27 January 2001

A Brief Review of Elementary Quantum Chemistry

Computational chemistry is a branch of chemistry that uses computer simulation to assist in solving chemical problems. It uses methods of theoretical chemistry, incorporated into efficient computer programs, to calculate the structures and properties of molecules and solids. It is necessary because, apart from relatively recent results concerning the hydrogen molecular ion (dihydrogen cation ...

Computational chemistry - Wikipedia

In physics, a quantum (plural: quanta) is the minimum amount of any physical entity (physical property) involved in an interaction. The fundamental notion that a physical property may be "quantized" is referred to as "the hypothesis of quantization". This means that the magnitude of the physical property can take on only discrete values consisting of integer multiples of one quantum.

Room-Temperature Activation of the C-H Bond in Methane over Terminal Zn II μ -Oxyl Species in an MFI Zeolite: A Combined Spectroscopic and Computational Study of the Reactive Frontier Molecular Orbitals and Their Origins

Inorganic Chemistry (ACS Publications)

Guidelines for all Chemistry Majors, Concentrators, and Interdepartmental Majors. Students majoring in chemistry or in one of the interdepartmental majors in chemistry should go to the director of undergraduate studies or the undergraduate program manager in the Department of Chemistry to discuss their program of study.

Chemistry < Columbia College | Columbia University

See how light knocks electrons off a metal target, and recreate the experiment that spawned the field of quantum mechanics. Visualize and describe the photoelectric effect experiment. Correctly predict the results of experiments of the photoelectric effect: e.g. how changing the intensity of light ...

Photoelectric Effect - Light | Quantum Mechanics | Photons

Explore bending of light between two media with different indices of refraction. See how changing from air to water to glass changes the bending angle. Play with prisms of different shapes and make rainbows. Explain how light bends at the interface between two media and what determines the angle ...
