ICW Polypropylene & Film Capacitors. We have been producing metallised film capacitors of the very highest quality since 1974. We offer an extensive catalogue of polypropylene and polyester dielectric components offering solutions in industrial drives, power conditioning, EMC filtering, aerospace, railway signalling, welding, induction heating, wind and solar energy to name but a few.

Polypropylene & Film capacitors for power electronics

An industrial PC is a computer intended for industrial purposes (production of goods and services), with a form factor between a nettop and a server rack. Industrial PCs have higher dependability and precision standards, and are generally more expensive than consumer electronics. They often use complex instruction sets, such as x86, where reduced instruction sets such as ARM would otherwise be used.
