Sinus Pain or, when it is very serious, Barotrauma of Sinuses. This pain often appears around or above the eyes, as in a headache on one side of the head. The pain results from atmospheric pressure changes, just as with inner ear pain (described above), only the pain involves congested sinus cavities.

In number theory, integer factorization is the decomposition of a composite number into a product of smaller integers. If these integers are further restricted to prime numbers, the process is called prime factorization.. When the numbers are sufficiently large, no efficient, non-quantum integer factorization algorithm is known. An effort by several researchers, concluded in 2009, to factor a ...

In this section, we show that factoring over \mathbb{Q} (the rational numbers) and over \mathbb{Z} (the integers) is essentially the same problem.. The content of a polynomial $p \in \mathbb{Z}[X]$, denoted " $\text{cont}(p)$ ", is, up to its sign, the greatest common divisor of its coefficients. The primitive part of p is $\text{primpart}(p)=p/\text{cont}(p)$, which is a primitive polynomial with integer coefficients.

In this section we will introduce logarithm functions. We give the basic properties and graphs of logarithm functions. In addition, we discuss how to evaluate some basic logarithms including the use of the change of base formula. We will also discuss the common logarithm, $\log(x)$, and the natural logarithm, $\ln(x)$.
