Engineering is the application of knowledge, typically in the form of science, mathematics, and empirical evidence, to the innovation, design, construction, operation and maintenance of structures, machines, materials, devices, systems, processes, and organizations. The discipline of engineering encompasses a broad range of more specialized fields of engineering, each with a more specific ...

Product data management (PDM) or Product information management (PIM) is the business function often within product lifecycle management (PLM) that is responsible for the management and publication of product data. In software engineering, this is known as version control. The goals of product data management include ensuring all stakeholders share a common understanding, that confusion during ...
