With Robotic Process Automation, you can easily automate such repetitive tasks in a given business process. Referring to the example of Invoice Processing, RPA can read emails, download and read PDFs, maintain data in Excel sheets, update backend ERP systems, while approvals and quality checks remain manual as they need specialized skills, judgement and knowledge.

RPA – what do you need to know | BPM tips

Overview. Enterprise modelling is the process of building models of whole or part of an enterprise with process models, data models, resource models and or new ontologies etc. It is based on knowledge about the enterprise, previous models and/or reference models as well as domain ontologies using model representation languages. An enterprise in general is a unit of economic organization or ...
