

research in philosophy technology pdf

3.2 Research Philosophy. A research philosophy is a belief about the way in which data about a phenomenon should be gathered, analysed and used. The term epistemology (what is known to be true) as opposed to doxology (what is believed to be true) encompasses the various philosophies of research approach.

research, it is obligation to introduce the philosophical variation with its different views. But it is the matter of regret that only a small number of books and writings can be found which are not enough to analyze the methodological aspects of social research. So, there is a scope to conduct a study on philosophy of science in social research.
