Please Hear What I Am Not Saying Don't be fooled by me. Don't be fooled by this mask that I wear. For I wear a thousand masks and none of them are really me. Masks that I'm too afraid to take off, fearing that you'll get to know me. Pretending is an art that is second nature to me. I'm pretending that I am in command and that I need no one.

A document open password is a password used to restrict the opening of a PDF file. In contrast, PDF owner passwords are used to provide document restrictions in PDF files. While this password is called the document open password in Adobe Acrobat, other PDF programs may refer to this password as the PDF user password or the PDF document open password .

I can't definitively say what is up, but if i were to guess I would say that the servers are getting overcrowded or something. If you try to submit at odd times (when the east coast kids are asleep), you might have better luck.

Using the print driver in Acrobat X Standard to save a PDF/A file as "standard" or "high quality" did not remove the PDF/A information. When I opened the test file thus created, I still got the message that the file complies with PDF/A, and I still can't add comments or sticky notes to it.
