The scores show that the contribution of brain activity stemming from feelings of love dominate over those of sexual arousal, but that both form components of the experience of romantic love recorded in terms of ...

The neural basis of romantic love - vislab.ucl.ac.uk

â€œCouples get out of the habit of sex, of being incredibly in love, and often for good reasons: work, children, a sick parent. But that type of love can be reignited.â€• Sexual activity, for example, can increase oxytocin levels and activate the brainâ€™s reward circuit, making couples desire each other more.

Love and the Brain | Department of Neurobiology

Love on the Brain. Scientists peeking inside our brains and psyches have more clues than ever about the biology of love -- why we're attracted, why we fall so hard, and what makes us stay.
