The Black Swan: the impact of the highly improbable. Nassim Nicholas Taleb Two contrasting summaries: Summary 1. This is an interesting read which is very abstract in nature. The book has made me think in a very abstract way in looking at past events that happened and trying to work out if we could have known that this was to happen .

form of inductive inference. Note that the Black Swan is not just a metaphor: until the discovery of Australia common belief held that all swans were white; such belief was shattered with the sighting of the first cygnus atratus. In the present discussion, the Black Swan is not simply a problem in logic (in fact the logical importance of the
