

the economics of international pdf

About fifteen Economics departments claim to be top ten* in the world. In that elite group, we're the new kids. We started in 1964 by building one of the very best research departments in econometrics (two Nobel prize winners) and economic theory.

Economics

International economics is concerned with the effects upon economic activity from international differences in productive resources and consumer preferences and the international institutions that affect them. It seeks to explain the patterns and consequences of transactions and interactions between the inhabitants of different countries, including trade, investment and migration.
