on a network of brain structures, the kingpin of which is prefrontal cortex (Diamond, 2002).¹ 782
COMMENTARY 1 Perhaps it is appropriate to say something about the differences, similarities, and overlap between related concepts used by authors of papers in this special issue: executive functions, self-regulation

The Evidence Base for Improving School Outcomes by

Evidence-based medicine (EBM) is an approach to medical practice intended to optimize decision-making by emphasizing the use of evidence from well-designed and well-conducted research. Although all medicine based on science has some degree of empirical support, EBM goes further, classifying evidence by its epistemologic strength and requiring that only the strongest types (coming from meta ...

Social impact investment can provide new ways to more efficiently and effectively allocate public and private capital to address social and economic challenges at the global, national and local levels. While these innovative market-based approaches will not replace the core role of the public sector or the need for philanthropy, they can provide a potentially powerful means for leveraging ...
