A clock is an instrument used to measure, keep, and indicate time. The clock is one of the oldest human inventions, meeting the need to measure intervals of time shorter than the natural units: the day, the lunar month, and the year. Devices operating on several physical processes have been used over the millennia. Some predecessors to the modern clock may be considered as "clocks" that are ...

According to the documentary short Evolution vs. God, Darwinism is a leap of faith that falls far short of Creationism in explaining the mysteries of our existence. The film, which could have presented a fascinating open debate on a crucial subject, quickly devolves into a shallow-minded "gotcha" exercise.. Throughout the course of the film, we're given flashes of rapidly edited interview ...
