I don't buy that this is what happened. I think she accessed his Gmail on his work computers. Once again, there's SarahW with the smart comment (no sarcasm). I agree, if for no other reason than downloading and permanently saving years worth of email on a smart phone would be a pain in the butt ...

A portable source of light probably started with a cave man carrying a burning stick of wood. There have been many portable light sources based on burning something. Once the dry cell battery became available flashlights became more popular than they were when a lead acid or other wet battery was needed.
