Lisa Jakub - Wikipedia

Life is a characteristic that distinguishes physical entities that have biological processes, such as signaling and self-sustaining processes, from those that do not, either because such functions have ceased (they have died), or because they never had such functions and are classified as inanimate. Various forms of life exist, such as plants, animals, fungi, protists, archaea, and bacteria.

Occult Biography "A well-written life is almost as rare as a well-spent one. "So wrote Thomas Carlyle, the great 19th century essayist and historian. It has also been said that if one wishes to know about the life of any well-known historical personage, one should read their biographies, but never their autobiographies. This is true, for in their autobiographies, men and women whitewash ...
