vii Preface The first edition of my Disorders of Personality text (1981) was widely regarded as the classic book in the field. Given its coordination with a theory of personality and psychopathology and with the then newly published DSM-III, it gained immediate acceptance among mental health professionals, the audience for which it was intended.

The 10 Priorities provide the concrete actions that are needed to achieve the objectives of the WHO Global strategy and action plan on ageing and health. Each priority is crucial to enable the world to take on a decade of concerted action on Healthy Ageing (2020-2030). Many are inextricably linked and all will require collaboration with many key partners.

Life expectancy is a statistical measure of the average time an organism is expected to live, based on the year of its birth, its current age and other demographic factors including gender. The most commonly used measure of life expectancy is at birth (LEB), which can be defined in two ways. Cohort LEB is the mean length of life of an actual birth cohort (all individuals born a given year) and ...
